

CIGARETTE LIGHTER CHARGER (60W)

Thank you for your purchase.

Before using the device, please read this instruction manual. Please keep it for future reference or for another user, if you lend or resell the device.

IMPORTANT

- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities or persons lacking experience or knowledge, unless they have been given supervision or prior instructions concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Do not expose it to moisture or any liquid product.
- Do not disassemble the product.
- If the power cord is damaged, do not use the appliance. Have the power cord replaced by the manufacturer, its after-sales service or similarly qualified persons in order to avoid any danger.
- This device must be used by an adult. Do not leave it within the reach of children (risk of burns).
- The power outlet for electrical equipment must be installed near the equipment and be easily accessible.
- Do not place flammable objects, explosive substances or dangerous objects near your device.
- Do not disassemble your device or attempt to repair or modify it yourself. Do not use your device if it has been subjected to shock or damage.
- To avoid risk of electric shock, unplug your appliance from the power supply and from any appliance before cleaning or when not in use.
- For external cleaning, use a soft, clean, slightly damp cloth.
- The use of solvents and improper use can irreversibly damage the product and create risks..
- Your device is intended for domestic use only and inside your vehicle.

Connect the device: Insert your device into your vehicle's cigarette lighter socket.

Connect your cables and charge up to 2 devices simultaneously.

Device at end of life

When your device reaches the end of its life, do not throw it away in nature. Take it to a specialized waste center. Respect the environment and the regulations in force in your country.

Your device contains many recoverable or recyclable materials. Take it to a collection point or, failing that, to an approved service center so that it can be processed.

The European Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), requires that used household appliances are not disposed of in the normal municipal waste stream. Used appliances must be collected separately in order to optimise the recovery rate and recycling of the materials they are made of and reduce the impact on human health and the environment.
