

THOMSON

BLUETOOTH FM TRANSMITTER

Thank you for your purchase.

Before using the device, please read this instruction manual. Please keep it for future reference or for another user, if you lend or resell the device.

IMPORTANT

- Your device is intended for domestic use only and inside your vehicle.
- Use, store only your device in an environment where the temperature is between 0°C and 35°C.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities or persons lacking experience or knowledge, unless they have been given supervision or prior instructions concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Do not expose it to moisture or any liquid product.
- Do not disassemble the product.
- This device must be used by an adult. Keep it out of reach of children.
- Do not place flammable objects, explosive substances or dangerous objects near your device.
- Do not disassemble your device or attempt to repair or modify it yourself. Do not use your device if it has been subjected to shock or damage.
- To avoid risk of electric shock, unplug your appliance from the power supply and from any appliance before cleaning or when not in use.
- For external cleaning, use a soft, clean, slightly damp cloth.
- The use of solvents and improper use can irreversibly damage the product and create risks..

Product Description

1. Microphone

3. USB-A Audio Port USB KEY Compatible

5. USB-C PD port (30W)

7. Adjustment button

2. Multifunction Button

4. QC3.0 USB-A port (18W)

6. Digital display

8. FM / EQ button / mode switch button

Plug in the device: Insert your device into your vehicle's cigarette lighter socket.

Wireless Pairing: Pair the player device with your phone via wireless network. Activate the Bluetooth function of your phone and pair your phone with the FM transmitter (Some phones will ask for a PIN code: 0000). Listen to music on your phone and enjoy the sound from your car speakers.

Set the frequency empty: select an empty FM frequency between: 87.5-107.9 MHz on your car radio (on which no FM channel is broadcast)

Reader function for your USB keys : Insert your USB key into the Audio port (3) containing audio files in MP3 / WMA format. This will allow you to listen to your music on your vehicle's speakers.

Charging function for your devices:

By connecting a USB-C cable into the PD30W port (5) or a USB-A cable into ports (3) & (4), you can quickly charge your devices' battery while using your phone.

Device at end of life

When your device reaches the end of its life, do not throw it away in nature. Take it to a specialized waste center. Respect the environment and the regulations in force in your country.

Your device contains many recoverable or recyclable materials. Take it to a collection point or, failing that, to an approved service center so that it can be processed.

The European Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), requires that used household appliances are not disposed of in the normal municipal waste stream. Used appliances must be collected separately in order to optimise the recovery rate and recycling of the materials they are made of and reduce the impact on human health and the environment.
